

January 21, 2015

Dear Bulk Water Customers,

As a reminder, in order to conform to regulations the following procedures are in effect for the filling of bulk tanks at the Utilities Field Office located at 1921 18th St. The steps that must be followed are:

1. All bulk containers must be outfitted with an approved fill tube incorporating backflow prevention or an approved air gap and a 2½” hose connection.
2. Payment must be in the form of cash or check. You may also apply for an account with the City of Sioux City, if you wish to be billed for your purchases. Cost of the water is set at (up to 3,000 gallons) \$15.00/load and (over 3,000 gallons) \$25.00/load.
3. Everyone must come to the front office and inform administrative staff or a supervisor of their intent to obtain water prior to filling the tanks.

Failure to follow these procedures will result in the loss of utilizing this facility for the purchase of bulk water. If you have questions about the bulk water process, please call the Utilities Field Office at 279-6164. Thank you.
