

West 7th Street: Design Open House

Date: Friday, February 14, 2014
Time: Noon
Location: Junior League of Sioux City
316 West 7th Street (Use door off Alley)
Sioux City, IA 51103

West 7th Street, between Hamilton Boulevard and Wesley Parkway, will be reconstructed in summer 2015. The City of Sioux City has retained the services of a consultant team consisting of RDG / DGR to design this project.

Consultant Visit and Upcoming Meeting

The City's consultant team, will be working out of the Junior League building (316 west 7th Street) from Wednesday, February 12th through Friday, February 14th. Throughout these three days, they will be drafting conceptual plans showing what the street configuration could look like. In addition, their public artist will be on-site to work on the aesthetic elements of the future corridor. If you are interested in seeing what they are working on and providing input, please feel free to stop by at any time on Thursday, February 13th, from 9:00 a.m. to 5:00 p.m. (please use the double door entrance off of the alley). Also, if we did not get in touch with you during our door-to-door visits, please contact me and I will set up a specific time to meet with our consultants on the 13th. On Friday the 14th, a public open house will be held to present their preliminary drawings. Please see the meeting information above.

Facade Program

As a reminder, the applications for the facade improvement program are due to me by 4:00 p.m. on Friday, February 14th. If you have not spoken with me, please contact me before you submit your application.
