

## Hauler Notice of Intent to Discharge to the POTW (NOI)

Any new or existing hauler of the City of Sioux City Wastewater Treatment Plant (WWTP) requesting modification or wishing to discharge industrial waste, septic waste or sludge to the WWTP must fill out this form (NOI) before any loads can be hauled into the plant for disposal.

The information received in this form will allow the authority to determine whether the waste being hauled is acceptable to discharge at the WWTP. After evaluation of the information provided the authority may ask for preliminary testing results on the waste in question. The information in the document will also be used to write a Septic Hauler permit if one does not already exist. Submitting this form is not authorization to begin hauling waste to the WWTP. You will be notified by the authority as to the status of your request.

If any of the following waste is to be discharged at the WWTP, documents from the feedstock supplier certifying that the feedstock qualifies as renewable biomass must be provided per 80.1454(d)(4).

- Planted crops and crop residue harvested from existing agricultural land cleared or cultivated prior to December 9, 2007 and that was nonforested and either actively managed or fallow on December 19, 2007.
- Planted trees and tree residue from a tree plantation located on non-federal land including land belonging to an Indian tribe or an Indian individual that is held in trust by the U.S. or subject to a restriction against alienation imposed by the U.S. that was cleared at any time prior to December 19, 2007 and actively managed on December 19, 2007.
- Animal waste material and animal byproducts.
- Slash and pre-commercial thinnings from non-federal forestland (including forestland belonging to an Indian tribe or an Indian individual, that are held in trust by the United States or subject to a restriction against alienation imposed by the United States) that is not ecologically sensitive to forestland.
- Biomass (organic matter that is available on a renewable or recurring basis) obtained from within 200 feet of buildings and other areas regularly occupied by people, or of public infrastructure, in an area at risk of wildfire.
- Algae.
- Separated yard waste or food waste, including recycled cooking and trap grease, and materials described in 80.1426(f)(5)(i).

Any questions should be directed to the Pretreatment Coordinator 712-279-6987.

As the signing authority I am aware that there are penalties for providing any false or misleading information, including fines and/or imprisonment. To the best of my knowledge I believe the information provided to be true, accurate and complete. By signing below I take responsibility for the information provided.

**WASTE DESCRIPTION & PRODUCTION INFORMATION**

Common Name of Waste: Waste #1: \_\_\_\_\_

Waste #2: \_\_\_\_\_

Process Generating Waste: Waste #1: \_\_\_\_\_

Waste #2: \_\_\_\_\_

Are the wastes in a flowable state?  YES  NO (Wastes must be able to gravity-flow through a 4-inch diameter hose.)

Is the process by which this waste is generated subject to Federal Categorical Pretreatment Standards?

YES  NO

If yes, please identify process: \_\_\_\_\_

SIC Code(s) of Processes Generating the Waste(s): \_\_\_\_\_

- Waste Type:  Industrial Process Waste—Organic  Unused or Off-Spec Product  
 Industrial Process Waste—Inorganic  Contaminated Groundwater  
 Food Production/Processing Waste  UST or Spill-Related Waste  
 Pet/Livestock Food Manufacturing Waste  Confined Livestock Operation Waste  
 Biofuels Production Waste  
 OTHER (please describe): \_\_\_\_\_

Anticipated Volume (gal): \_\_\_\_\_ per:  Day  Week  Month

One-Time Disposal or On-Going/Continuous?  One-Time  On-Going/Continuous

If One-Time, Anticipated Duration of Disposals: \_\_\_\_\_  Days  Weeks  Months

Who will transport the waste?  In-house trucks  Private waste transporter  
 Name of private firm: \_\_\_\_\_

**WASTE CHARACTERISTICS – Lab Data** (Fill-in lab results below or attach analytical reports to this form.)

CBOD5: \_\_\_\_\_ mg/L  
 COD: \_\_\_\_\_ mg/L

Resource Conservation and Recovery Act (RCRA) being followed? YES NO

**I hereby certify the following:** *The wastes identified in this Hauled Waste Profile Form for considerations for disposal at the Sioux City Wastewater Treatment Plant do not contain any pesticides or herbicides including Endrin, Methoxychlor, 2,4-D Lindane, Toxaphene, 2,4,5-TP (Silvex), Chlordane, or Heptachlor (and its Epoxide); does not contain PCBs; and does not contain any material at a concentration which would render it as hazardous as defined in 40 CFR 261.3.*
